## The National Information Technology Commodity Program

GSA Federal Acquisition Service, Integrated Technology Services recently launched the National Information Technology Commodity Program. The program's mission is to procure IT commodities and ancillary (integral and related) services for customers located nationwide using innovative solutions. The program offers innovative ordering of end-to-end solutions for IT commodities for federal, state, and local government customers nationwide.

### Looking to buy IT Commodities and Ancillary Services?

#### Commodities:

- Tablets
- Laptops
- Notebooks
- Mobile Computing Devices
- Peripherals
- Hardware
- Desktop Personal Computers
- Workstations
- Mainframes
- Supercomputers
- Servers
- Racks
- Data Storage & Backup

- Network & Telecommunication Products
- Monitors, LCDs & Projectors
- UPS & Power Protection
- Teleconferencing
- Video Tele-Conferencing (VTCs)
- Cyber Security Products

#### Ancillary Services:

*(integral and related to product being purchased)*

- Warranty
- Installation

### Why use the IT Commodity Program?

- BPAs have all Strategic Sourcing characteristics
- Offers competitive pricing
- Drives down prices and increases savings for customers and tax payers
- Save up to 37% from GSA Multiple Award Schedules (MAS)
- Promotes Sustainability Initiatives
- Improves ordering process for IT commodities
- Provides enabling technology to support the Federal CIO 25 point plan and cloud first initiative
- Provides spend data and prices paid
- All obligations go to small businesses

*Specifically, the program leverages GSA Multiple Award Schedule 70 (IT) resulting in:*

- *Innovative acquisition solutions, i.e. Blanket Purchase Agreements against IT Schedules 70 reverse auction, requisitions*
- *Easier purchasing, improved service and better value for customers*
- *Streamlined operations that reduce duplication and overall contracting costs*

**Looking to Buy or Need**
